

*****IMPORTANT NOTICE*****

*****ABOUT HAIL/WIND DAMAGED VEHICLES*****

The recent storms in our area have caused wind and hail damage to a large number of motor vehicles. Many people have been told by their insurance companies that the damage to the vehicle is more than the vehicle is worth so it is considered "totaled." In order for the claim to be paid, a salvage title must be issued. Below is information from the Ohio BMV website regarding salvage titles and how to apply:

First apply for a salvage title in your name changing the status of your title from regular to salvage. (*NOTE: The vehicle cannot be operated on the road while evidenced on a salvage title.*) Upon completion of the repairs, contact the closest Highway Patrol Inspection Station and make an appointment to have a salvage inspection done (there is an inspection fee). Take any receipts for repairs and new parts with you to the inspection. Once the vehicle has successfully completed inspection, take Form HP106 and your salvage title then proceed to any Title Office and apply for a "rebuilt salvage" title. After all of these steps have been completed, the vehicle is now operable for use on any road.

The fee for a salvage title is \$4.00 plus an affidavit fee of \$1.00 if the salvage application hasn't been completed and notarized.

Salvage inspection receipts can be purchased at any license bureau for \$53.50. *You will need this receipt BEFORE you call to make an appointment for the inspection.*

We understand that currently there is a 6 to 8 week wait for inspections. The State Patrol understands that most of the damage done is strictly cosmetic, however, once the title is branded SALVAGE it must be inspected before it can legally be driven on roadways.

You can bring the form HP106 and your salvage title to any title office to apply for a rebuilt salvage title. The fee for this title is \$15.00 plus \$1.00 for the application if it's not been completed and notarized. The branding 'Rebuilt Salvage' will follow the vehicle through all subsequent transactions.

Should you have any questions regarding the inspection, please contact one of the OSP Inspection Stations:

Ohio State Highway Patrol Salvage Vehicle Inspection Facility Locations

The following locations are permanent inspection sites open from 8 a.m. - 4 p.m. weekdays.

Crawford County	Cuyahoga County	Franklin County	Hamilton County
