

BRONZE STAR MEDAL – WWII VETERANS

After General Omar Bradley became Chief of Staff of the U.S. Army, he let it be known that he felt combat infantrymen and combat medics of WWII deserved something more than a simple “job well done.” As a result, U.S. Army regulations were changed so that combat infantrymen and combat medics from WWII who had been awarded the Combat Infantryman’s Badge – (CIB) or the Combat Medic Badge (CMB) and served between December 7, 1941 and September 3, 1945 were also eligible for the Bronze Star Medal.

We are looking for WWII veterans that were awarded the Combat Infantryman’s Badge or the Combat Medic Badge as a result of service in World War II during the dates listed above or their next-of-kin and did not receive the Bronze Star Medal. If you qualify, please contact the Greene County Veterans’ Service Commission at (937) 562-6020.

Remember, this award only applies to U.S. Army infantrymen and medics from the World War II era, December 7, 1941 through September 3, 1945.
