

## **2018 Greene County Coroner's Office Annual Report**

To the Citizens of Greene County:

The responsibility of determining the cause and manner of unexpected deaths in Greene County is one that the Coroner's Office staff takes very seriously. The results of these investigations provide valuable information, which is used by the criminal justice system, families of the deceased, public health personnel and other concerned parties.

The National Association of Medical Examiners (NAME) has accredited the Greene County Coroner's Office since 2000. This achievement is the result of years of work by our entire staff. We are one of only six Coroner's Offices in Ohio to be accredited. We are very proud of this accomplishment.

In 2018, there were 1205 deaths in Greene County. The Greene County Coroner's Office was contacted regarding 989 of these deaths. Autopsies were required for 154 of these cases, 33 were without a medical doctor and three deaths investigations occurred out of the county. The workload of Coroner cases has **increased 18.2%** since 2014. The Greene County Coroner's Office continues to provide services that adhere to the high professional standards demanded by NAME.

Most people believe the Coroner's Office is primarily concerned with the circumstances surrounding death. Our office is equally concerned with the preservation of life. The entire staff spends many hours with the Child Death Review Team to examine all types of data related to the death of children under the age of 18 in our county. We are an active member of the Greene County Suicide Prevention Coalition; participate in mock accidents at local high schools; and speak at high school health classes.

On behalf of the Greene County Coroner's Office, I would like to thank the local fire and emergency medical service squads and law enforcement as well as the local hospitals and nursing home personnel for their excellent support and cooperation, which enables us to provide this necessary service to the people of Greene County. I also wish to express my heartfelt thanks to the excellent staff of the Greene County Coroner's Office who keep our program running very efficiently. It is my pleasure to present the Greene County Coroner's Office 2018 Annual Report.

Respectfully submitted,

Kevin L. Sharrett, M.D.  
Coroner of Greene County

## **Office of the Greene County Coroner**

120 East Main Street, Xenia, Ohio 45385

Phone: (937) 562-5050

Fax: (937) 562-5692

### **Coroner's Office Personnel**

Kevin L. Sharrett, M.D.  
Greene County Coroner

William L. Harden  
Administrator/Investigator

Jean Harner, R.N.  
Administrative Assistant

Carl Day  
Investigator

John Turner  
Chief Investigator

## **Coroner & Staff**

The National Association of Medical Examiners accredits the Coroner's Office.

Dr. Sharrett and his staff are required to attend the semi-annual training sessions conducted by the Ohio State Coroner's Association.

## **Mission Statement**

The Mission of the Greene County Coroner Office is to investigate and determine the cause and manner of death due to an accident, homicide, suicide, or sudden/unexplained deaths when a person who was in apparent good health dies.

Procedures that are used to conclude the investigation may include autopsies, testing for toxicological substances in the body, histological examinations from tissues samples for the presence of disease, trauma, or irregularities of the body or scene that may have contributed to the death.

Ohio Law requires that the cost of the autopsy shall be paid by the county in which an injury that caused the death occurred, even though they died in another county. In 2018, there were three of those types of deaths.

The Greene County Coroner's Office utilizes the Montgomery County Coroner's Office to perform forensic autopsies, which includes a fully accredited crime laboratory. Forensic anthropologists and odontologists serve as consultants as needed. National Association of Medical Examiners also accredits the Montgomery County Coroner's Office.

## **Reportable Deaths to the Coroner**

Chapter 313 of the Ohio Revised Code defines the qualifications, duties and records of the Coroner. It also defines the deaths that require notification to the Coroner. Not all deaths referred to the Coroner for investigation result in an autopsy.

### **Types of Deaths Reportable to the Coroner**

1. Sudden and unexpected deaths, medical procedure deaths, occupational deaths, no medical history.
2. Violent deaths such as homicide, suicide, gunshot, stabbing etc.
3. Accidental deaths such as motor vehicle crash, burns, drowning, falls, drug overdose/abuse; other recent or past trauma.
4. Any suspicious circumstances surrounding a death.
5. Death of a person in the custody or control of a law enforcement agency.

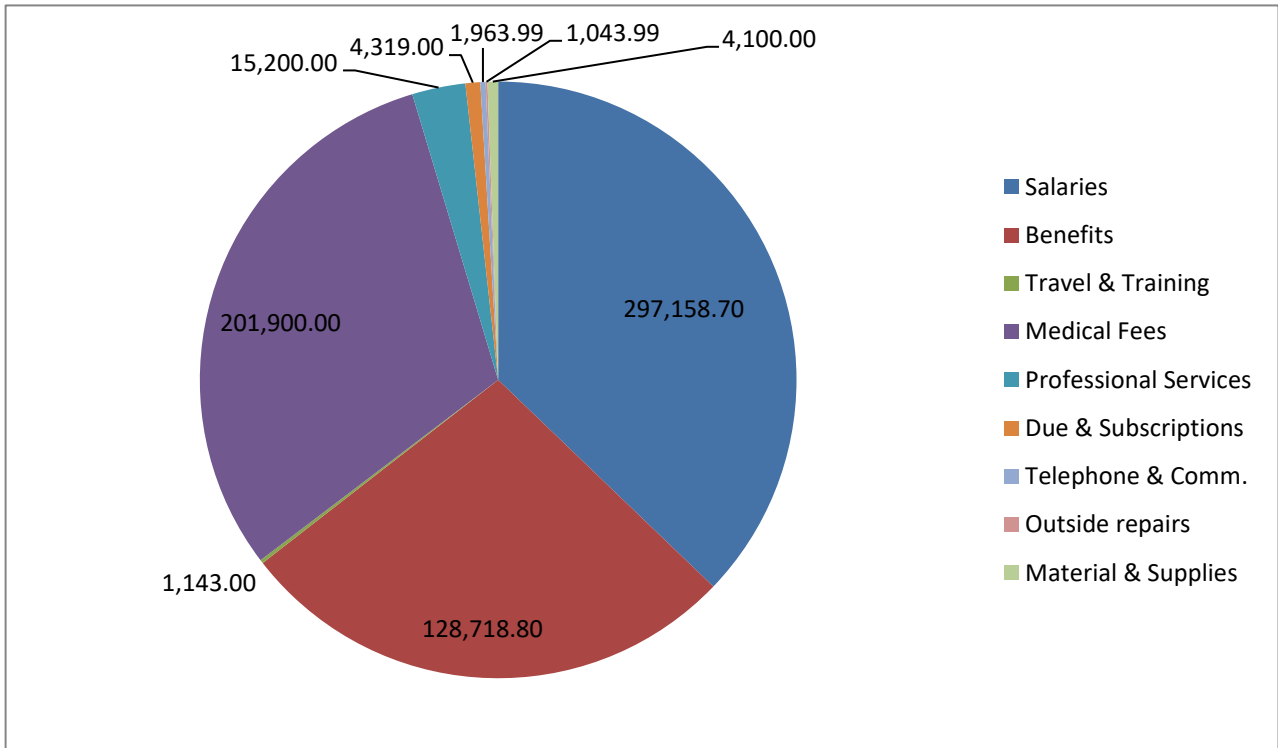

### **Types of Coroners Cases for Which Autopsy is usually ordered?**

1. Sudden and unexpected death when the coroner believes there is insufficient medical history.
2. Violent deaths of all types such as homicide, suicide, gunshot, etc.
3. Accidental deaths of all types. If the victim has been hospitalized for a length of time, it is the Coroner's decision to order an autopsy.
4. Suspicious circumstance surrounding death, including unidentified bodies.
5. Death of a person in the custody or control of a law enforcement agency.
6. Sudden infant deaths and deaths of children 18 and under without significant medical history.
7. An autopsy may be ordered at the discretion of the Coroner if the cause of death cannot be determined by the attending physician.

**Table 1: 2018 Budget – Greene County Coroner’s Office**

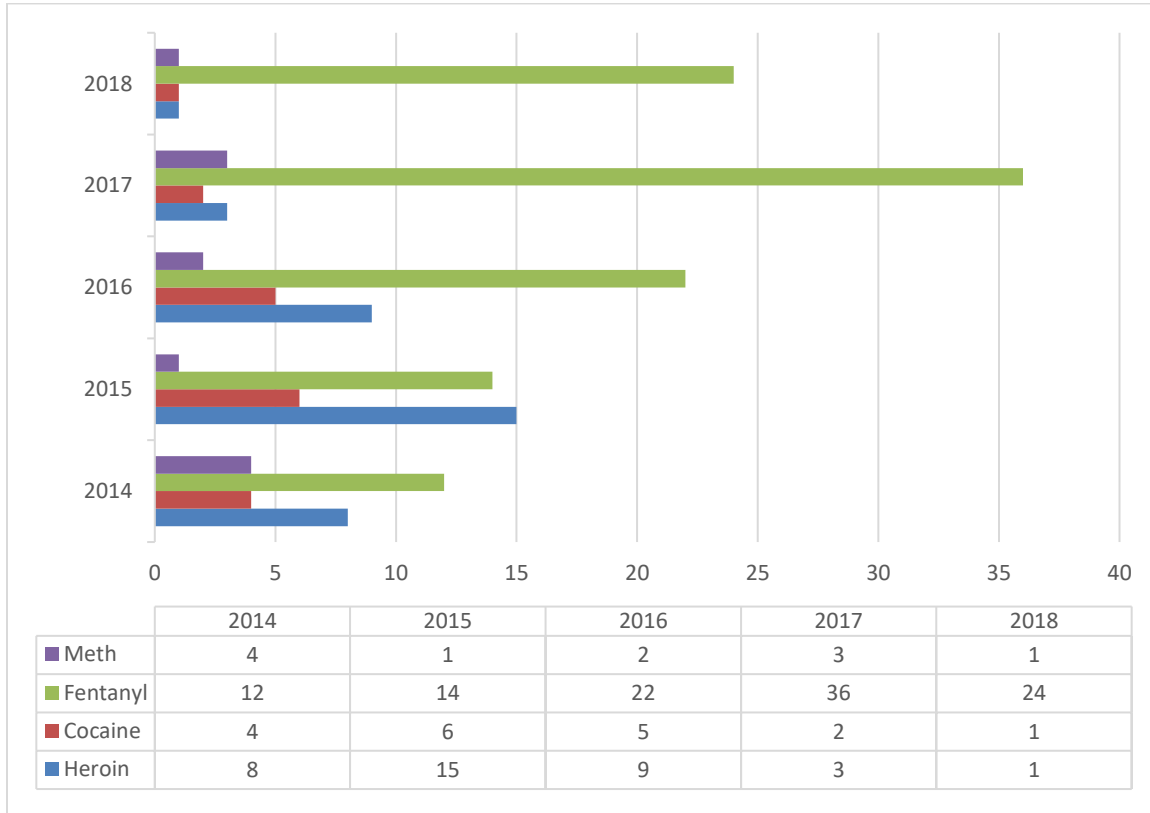

The Greene County Coroner’s 2018 appropriated budget was \$ 649,546.99 a supplemental budget amount of \$ 6,000.00 was added to the budget, which increased the overall appropriation amount total to \$ 655,546.99. This increase was awarded late in the year due to increase in autopsies/cases.

Salaries	297,158.70
Benefits	128,718.80
Travel & Training	1,143.00
Medical Fees	201,900.00
Professional Services	15,200.00
Due & Subscriptions	4,329.00
Telephone & Comm.	1,936.99
Outside repairs	1043.50
Material & Supplies	4,100.00
<b>Total</b>	<b>655,346.99</b>

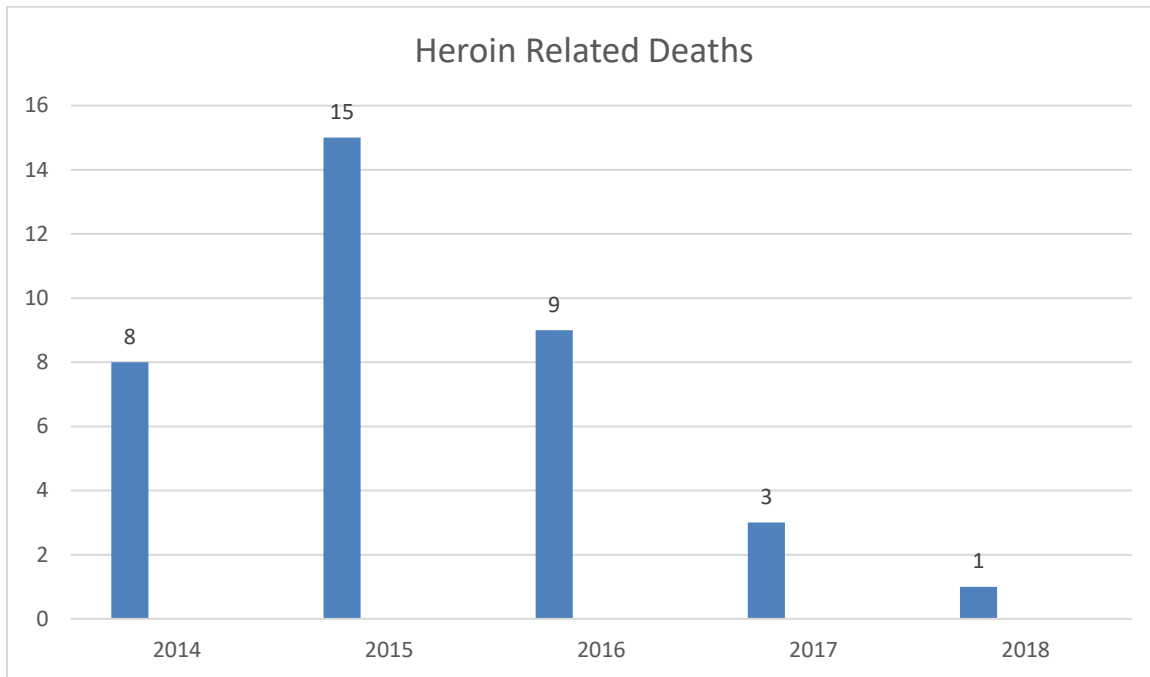

## Table 2: Drug Overdoses

There were 37 deaths due to drug overdose in 2018. The Coroner ruled all 37 deaths as accidents. Total drug deaths are currently among the highest they have been in the past decade. Many have died under the influence of a combination of drugs, and it is often hard to categorize them. In order to demonstrate the increasing deaths from heroin, cocaine, fentanyl, carfentanil below is a chart.

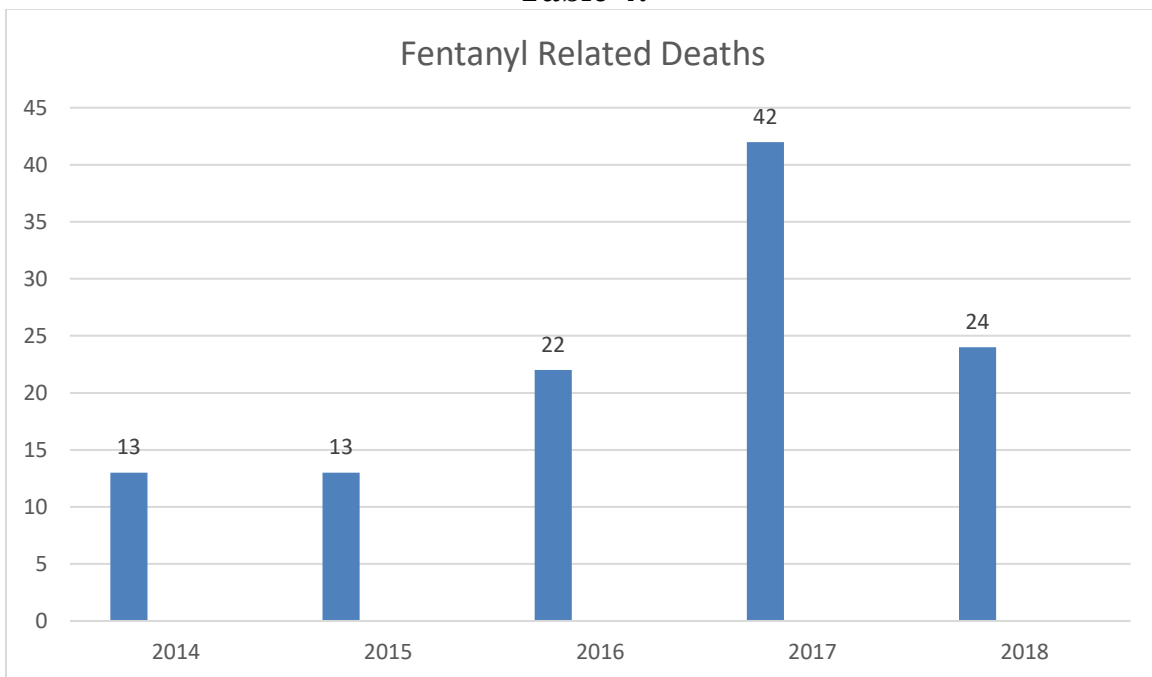

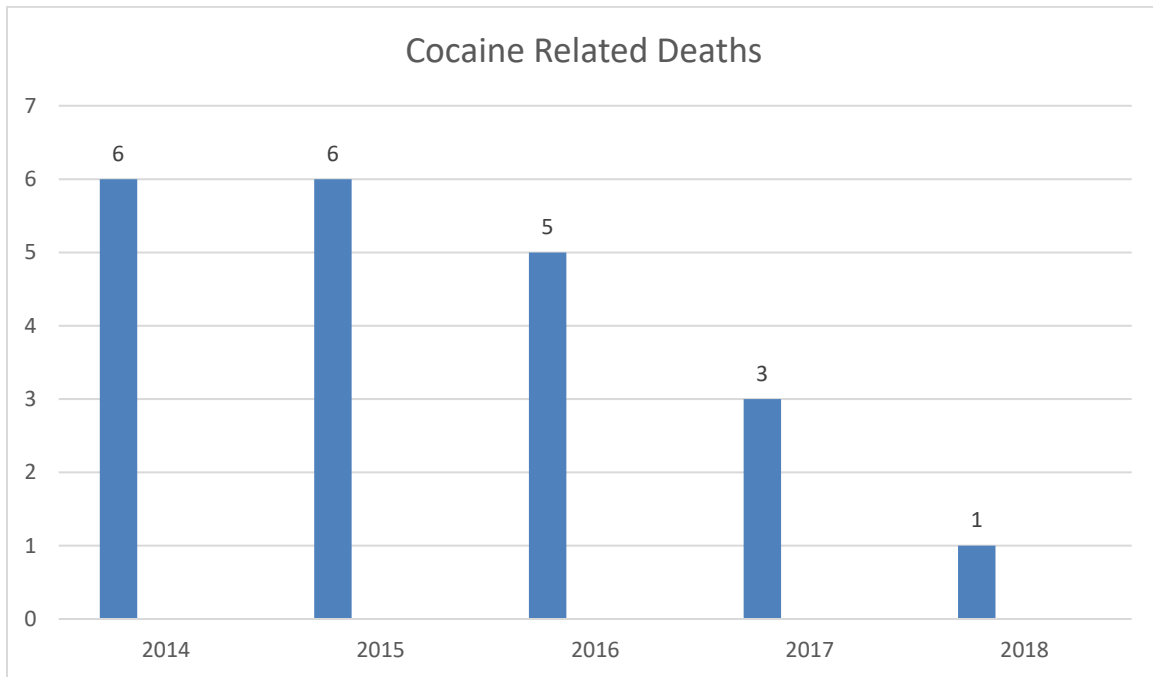

**Table 3:**

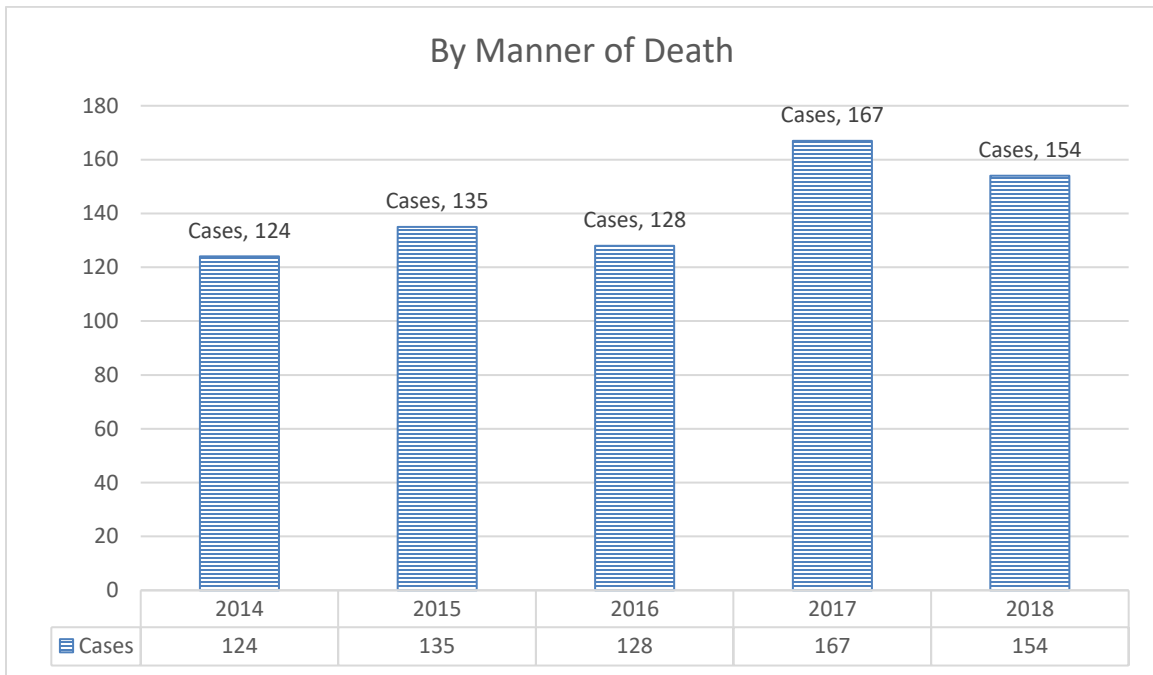

**Table 4:**

**Table 5:**

**Table 6:**

In 2018, there were 1205 deaths in Greene County. The Coroner Office was contacted regarding 989 of these deaths (82.1%). Only 154 cases were accepted for full investigation, while 839 were declined because they did not fall within the requirements for a full investigation by the Coroner’s office. The declined cases did however receive a preliminary examination.

Tables 7 and 8 compare the total cases and with autopsy percentages from 2014-2018

Undetermined	2			1

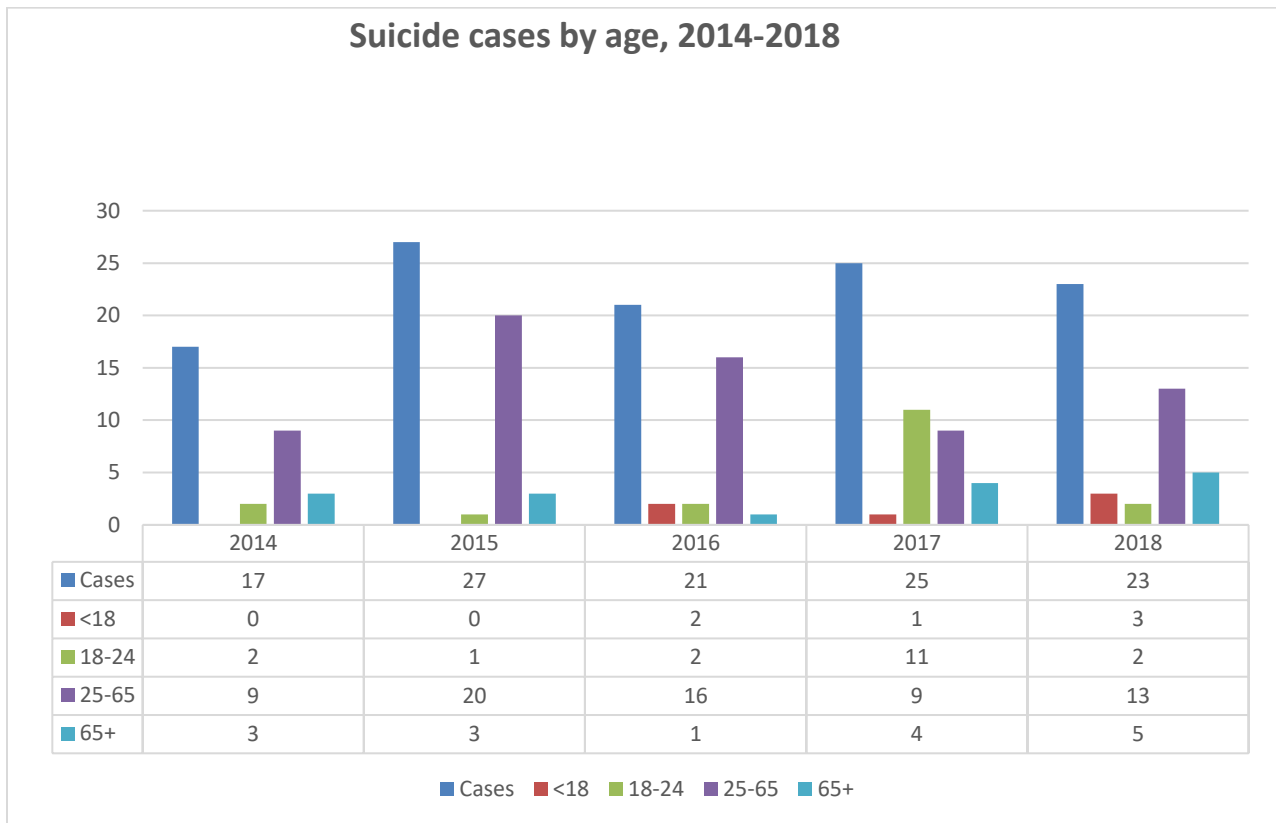

### Table 14: Suicides

In 2018, there were 23 suicides deaths. Thirteen with a handgun, seven hanging, two undetermined cases and three suffocation. Three factors that are common in suicide deaths: (1) prior attempts or threats, (2) history of alcohol or drug abuse, (3) history of depressions or other mental health illness.

There have been 113 suicides in Greene County for the years 2014-2018. Tables 15 thru 18 Break down these suicides by age, race, gender, and method.

**Table 15:**

**Table 19: Child Fatalities**

In 2018, five child fatalities (<18 years old) fell under the jurisdiction of the Greene County Coroner’s Office. These numbers are typically low since children, who are unresponsive, are transported to Dayton Children’s Hospital, where they are pronounced dead. Dayton Children’s Hospital fall under Montgomery County jurisdiction.

## OHIO CHILD FATALITY

The Greene County Coroner's Office annually conducts a Child Fatality Review Board meeting for Greene County. Ohio Revised Code 307.624 mandates this confidential meeting. The committee reviewed 16 cases of child deaths under 18 years old.

## COMMUNITY EDUCATION

The Coroner's Office goal is to raise awareness through education, community training, and prevention activities. We collaborate with various organizations within the community, as well as provide training to these organizations on the duties and responsibilities of the coroner's office.

The Greene Co. Coroner's office is an active member of the Greene County Suicide Prevention Coalition under the under the auspices of the Mental Health and Recovery Board of Clark, Greene, and Madison counties. The Coroner's Office provides assistance and works closely with Tissue Bank of Montgomery County, Victim Service advocates of the Greene County, Beavercreek, Xenia and Fairborn Municipal Prosecutor's offices. The Coroner's Office also works closely with organ donor organizations such as the Community Blood and Tissue of Dayton and Life Connections of Miami Valley.
